

REMARKS

Reconsideration of this application is requested in view of the amendments to the claims and the remarks presented herein.

The claims in the application are claims 1 to 3, 7 to 11 and 13 to 22, all other claims having been cancelled.

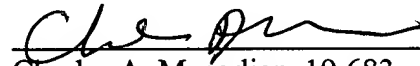

Claims 8 and 9 were rejected under 35 USC 112, second paragraph, as lacking antecedent basis for the term “emulsifier”. The term “emulsifier” has been inserted into claim 1 and it was overlooked in originally amending the claims that the emulsifier was in the amended claims submitted with the application. Therefore, this ground of rejection is obviated.

Claims 1 to 4, 7, 10 and 11 were rejected as being anticipated or under 35 USC 103 as being obvious over the Buerger et al patent and claims 1 to 4 and 7 to 11 were rejected as being obvious under 35 USC 103 over the Buerger et al patent and the Yueng et al patent or the Tsai et al patent. The Examiner indicated that claims 6 and 13 were directed to allowable subject matter.

Applicants respectfully traverse this ground of rejection since the claims have now been amended to incorporate claim 6 into claim 1. Claim 13 has been rewritten in independent form. Therefore, the generic claims are now drawn to allowable subject matter and these grounds of rejection have been obviated.

In view of the amendments to the claims and the above remarks, it is believed that the claims clearly point out Applicants' patentable contribution and favorable reconsideration of the application is requested.

Respectfully submitted,
Muserlian, Lucas and Mercanti
